Call For Presentations

Tampere Goes Agile 2014 takes place at Sokos Hotel Ilves on Saturday 25.10.2014. **Theme** of the year is **We're all in this together** and we we celebrate that with an international keynote by Woody Zuill on Mob Programming. Agile Finland ry is delighted to continue organizing the free, fun and friendly conference, this time for 140 people.

At this point, we're **inviting your contribution** for the great conference in the heart of Tampere. Please let us know what topics you could present on and why the agile software development community in Tampere would benefit from hearing from your experiences and ideas.

We believe the theme emphasizes various contributions in the field of agile software development, and hope to hear from design, development, testing and coaching communities of practice. The program fits **6 track talks** (40 minutes) and **6-10 group discussion or exercise oriented smaller group sessions**. The discussion / exercise sessions can be double length (2 hrs) or half length (1 hrs).

As this is a very practical, hands-on conference, we're already approaching great presenters we know of to fill some of the slots to build the core of the program. But we might not know about YOU and the great content you could deliver, so please, help us and let us know. Send your suggestions (you can still polish them with us after acceptance) right now, and at latest Friday 29.8.2014.

Submit your suggestions by email to: organizers@tamperegoesagile.fi

Mark the date in your calendar, we're opening the registrations 15.9.2014 and this time, we fit only 140 people!
